

Academia

Established by the Higher Education Policy Network (<http://hepnet.upatras.gr>), ACADEMIA is an international peer-reviewed, refereed e-journal publishing articles and book reviews that represent the whole field of Higher Education.

ACADEMIA is a forum for researchers, educators, administrators, students and policy makers interested in theory, practices, research and policy across the whole field of Higher Education.

ACADEMIA is an interdisciplinary journal which welcomes contributions focusing on Higher Education from a sociological, political, philosophical, historical, pedagogical, educational and administrative point of view. International and comparative approaches, new ways of interpreting Higher Education, are also welcomed.

ACADEMIA is published in three languages. Articles should be written in English, French or Greek. All articles undergo rigorous peer review, based on initial editor screening, and anonymous refereeing by at least two expert referees. No more than one of these referees is a member of the Journal's editorial board. ACADEMIA publishes a general issue annually and thematic issues during the year.
